**INTRODUCTION**

The Office of the County Auditor conducted a compliance review of the County's adherence to the Georgia Security and Immigration Compliance Act (GSICA). The GSICA of 2006 established new work eligibility verification requirements and further prohibited the provision of certain services or benefits to any adult without verification of their immigration status for Georgia's public employers, their contractors and sub-contractors.

**BACKGROUND**

The GSICA is codified along with related amendments in several sections of the Official Code of Georgia (O.C.G.A.) including 13-10-90, 91 and 50-36-1. According to O.C.G.A 13-10-90, 91 every public employer shall register and participate in the federal work authorization program to verify employment eligibility of all newly hired employees. Public employers must post their federal identification number and date of authorization on their website. In addition, no public employer shall enter into a contract for physical performance of services unless the contractor registers and participates in the federal work authorization program. Therefore, the Georgia Department of Labor designated the Employment Eligibility Verification (EEV)/Basic Pilot Program (E-Verify) operated by the U.S. Citizenship and Immigration Services Bureau of the U.S. Department of Homeland Security as the electronic federal work authorization program. In addition, before a bid for any service is considered by a public employer, the bid shall include a signed, notarized affidavit from the contractor attesting registration and participation in E-Verify.

Based on O.C.G.A 50-36-1, all agencies providing a public benefit are required to verify the lawful presence of every person 18 years of age or older who applies for state or local public benefits by requiring each applicant to execute an affidavit affirming that he or she is a legal permanent resident, or a qualified alien lawfully present in the United States. Additionally, all agencies must register with the Systematic Alien Verification for Entitlements Program (SAVE).

Fulton County Policies and Procedures, Standard Number 100-28 was issued in January 2010 in response to the requirements of the GSICA. The formal policy pronouncement is the underlining basis of the Fulton County Government GSICA programs.

**OBJECTIVE**

The objectives of the audit were to ensure that Fulton County departments, agencies and contractors are in compliance with GSICA and related Fulton County policies and procedures.

**SCOPE**

The scope of our compliance testing covered the period from January 1, 2016 through March 31, 2016.

## **METHODOLOGY**

This compliance review focused on the Department of Facilities and Transportation and the Department of Water Resources. The review included an analysis of contracts and related contractors' work eligibility requirements.

Two contracts were randomly selected from a list of Fulton County's E-Verify vendors. The contracts were the South Fulton Road Resurfacing Contract (#15ITB97138K-DB) and the Large Water Meter Installation Contract (#15ITB94360A-AP). Our review was for the period of January 1, 2016 through March 31, 2016. We visited each contractor's location and met with the payroll administrators to verify the contractor's GSICA compliance including participation in E-Verify. In addition, the contractors provided personnel files and payroll reports for employees working on Fulton County's projects. The files were reviewed for compliance with GSICA documentation requirements and work eligibility.

## **FINDINGS AND RECOMMENDATIONS**

There were no reportable findings noted during our review. Both contracts contained the required signed and notarized affidavit from the contractors attesting to their registration and participation in E-Verify and fully executed GSICA in conformance with GSICA standards. The forms reviewed were standardized documents provided to the vendors by the Fulton County Purchasing and Contract Compliance Department. Additionally, there were no outdated or missing documents in the employees' files for either contractor.

## **CONCLUSION**

Based on our review, the Department of Facilities and Transportation and the Department of Water Resources contracts with E.R. Snell Contractors, Inc. and Site Engineering, Inc. are in compliance with GSICA and related Fulton County policies and procedures. As a result, no written response to this audit report is required.

We would like to thank management and staff for their timely cooperation and assistance during this audit. The distribution of this report is reserved for the executive management of Fulton County and the Board of Commissioners.
